I'm taking the time to update this testimonial letter to introduce you to Bluestone, Inc. The original letter was written in 1999. What I said then still applies today. Even more so because the Bluestone Premium Roofing Systems installed in 1992 have been leak free now for over 20 years.

Prior to meeting Mr. Beloin and witnessing his demonstrations, we were heading in another direction when looking for a solution to our commercial roofing problems on our 27,000 sq. ft. building. His demonstrations truly are enlightening.

When you combine a superior product with a competitive price and willingness to forgo the final payment of 25% until the warranty expires, you know that they are not making empty promises.

Common sense solutions with competitive prices and an unbeatable warranty.

It will be well worth a few minutes of your time to witness his demonstrations that are backed up with undeniable facts of how the roofing industry operates.

A handwritten signature in black ink, appearing to read "Dan Noury". The signature is fluid and cursive, written over a white background.

A very satisfied customer,
